

Using Microsoft Authenticator

On your computer go to <https://mysignins.microsoft.com/security-info> and log in with your MS 365 email account.

Let's keep your account secure

We'll help you set up another way to verify it's you.

Next

On your cellphone phone install the Microsoft Authenticator app from the Apple App Store or Google Play Store.

iOS (apple): <https://apps.apple.com/us/app/microsoft-authenticator/id983156458>

Android Play Store (Samsung, Google, One+, Motorola etc.) :
https://play.google.com/store/apps/details?id=com.azure.authenticator&hl=en_US

Open the Microsoft authenticator app on your phone, if there is a warning about data privacy click continue.

On the next screen press the “Scan a QR code button” or click the + button. You might be prompted to allow the app to access your camera. Point your phone’s camera at the screen of your computer capturing the image of the QR code.

Scan the QR code

Use the Microsoft Authenticator app to scan the QR code. This connects the app to your account.

Then come back and select Next.

[Can't scan the QR code?](#)

You may then be prompted to approve the login on your phone or enter a code.
